

Recent Corporate and Organizational Donors

We continue to be financially helped by many individuals, small and large companies, as well as by a growing number of Charitable Foundation. We are grateful for each contribution we receive, whether it is \$25.00 from a previous resident or family member, or \$25,000 or more from local Charitable Foundation. We recognize that the motivations and thoughts behind any contribution is unique, however the contributions we receive all seem to unite around the common theme that served as the foundation for Charlie's ¾ House in when it began in 1979 as well as today; i.e. simply, **one person reaching out to help another in need.**

To help paint a picture of the various Companies and Organizations in the Cincinnati area who have chosen to make a contribution to Charlie's in the past two to three years, following is a representative sampling from that group:
