

To Charlie's

I want to thank Andy and the Board at Charlie's for the opportunity you provided me. Charlie's took me in when I was homeless and hopeless. You had faith in me when I didn't have any in myself. You helped me establish a solid sober foundation, gave me direction and support for my future in sobriety. I am grateful, and will never forget my experience at Charlie's.

What you are doing for alcoholics is needed very much. You are saving lives and not just the lives of the alcoholics, but the lives of the alcoholic family. Charlie's is making a difference in the lives of many alcoholics. You are opening doors for people that otherwise wouldn't have a chance at recovery.

Charlie's gave me discipline, but also gave me the latitude to do what I needed without being under constant supervision and rules that doesn't promote progress. You gave me the freedom I needed to experience life and deal with the problems that come up on a daily basis. This enabled me to grow and mature in recovery.

In the future I will encourage alcoholics that are still suffering to come to Charlie's and establish a program of recovery and put their life back in order.

I thank you all for what you have done for me and for others. I want to especially thank Andy for the one on one talks and the support and direction he gave me during my year there. It was all greatly appreciated.

Sincerely,
